Bodywork Company endeavours to take a holistic approach to the training it offers its students, developing their individual talents. Students train in a caring and nurturing environment in which they are supported through an important transitional period, where they mature into responsible and conscientious adults. The wide and diverse experience of the staff develops students' cultural awareness and places their learning in its historical context.

Our students graduate with a secure knowledge of the needs and requirements of the profession.

THE LOCATION

Bodywork Company is uniquely situated in Cambridge, close to the main line railway station and half a mile from the city centre. Cambridge is a city with an academic history stretching back 1000 years creating an atmosphere conducive to study. Cambridge City Centre houses the historic university colleges and the charming River Cam which meanders down to Grantchester Meadows. As a city geared towards student life there are numerous cafes, bars, restaurants and clubs as well as great shops and two major shopping centres. Being close to London (45mins by train) many of our full time staff and guest teachers are able to commute, keeping pace with the changes in the professional world. Bodywork is a modern college which maintains the tradition and discipline required for the profession, ensuring the highest standard to help each student reach their full potential.

THE FACILITIES

The college is in two tastefully converted Victorian warehouses with a range of air-conditioned dance studios and rooms purpose built for dance, drama, singing, and musical theatre. In addition, there are well appointed changing facilities, an I.T. suite, a music library, and a large social area. The ground floor has full access and facilities for wheel chair users. The other sites within the campus are a short walking distance from our main building.

LIFE AT BODYWORK

Most students live within walking or cycling distance of the college, those who come by train only have a five minute walk from Cambridge Station, which has an excellent service to Kings Cross. Being a University

City Cambridge has much to offer students and discount cards are available through the college. We encourage a sense of community both in and out of college, many students remain firm friends throughout their lives, some even marry each other! STUDYING IN CAMBRIDGE

Cambridge city is renowned for its ancient university dating back to the twelfth century attracting thousands of tourists every year, creating a multicultural atmosphere. Many of the historic college buildings, including Kings College Chapel, are open to the public and are well worth a visit.

STUDENT ACCOMMODATION

Finding the correct accommodation is vitally important for the wellbeing of the students.

Students can board with a family recommended by us, which we strongly advise for younger students living away from home for the first time.

Shared housing is usually a less expensive option and we work closely with a list of approved local landlords to help students get affordable and safe accommodation. We prefer our students to be less than a mile from the college and strongly advise them to cycle into college – Cambridge is a 'Cycle' City.
